Stuffing the Stocking

You're on the countdown now! It's time for baking, decorating and getting those final gifts ready!

Stuffing a stocking is a sensible solution for last minute gifts. Holiday stockings traditionally hang from the mantel awaiting Santa's visit, but they also make simple, economical, festive "wraps" for gifts.

Remember teachers, coaches, neighbors, scout leaders, hair dressers and those who deliver the mail and newspaper.

It's fun to have a themed stocking like this one, holding eco-friendly beverage containers: one for hot beverages and one for cold. The Copco To Go Cup™ looks like a to-go cup from your favorite coffee shop, but better – eco-friendly, reusable, BPA-free, microwave and dishwasher safe. The double-wall plastic construction provides enhanced insulation so you can leisurely sip that hot beverage and know it will stay warm.

The Stir 'N Sip Cup™ for cold beverages has a built-in straw with a stirrer on the end, great for keeping smoothies and shakes smooth and creamy as you sip. It's also perfect for milk, iced tea, juices, lemonade and other iced or cold beverages. The non-slip grip on both the mug and cup come in a variety of bold colors as well as the classic brown.

To make this stocking extra special, include a recipe for a seasonal favorite...Minty Cocoa for Santa. It's so easy. Just heat milk and dark cocoa mint flavored Candy Melts, pour into the mug and enjoy topped with whipped cream and

snowflake sprinkles. Pair it with a plate of holiday cookies for Santa and he's sure to enjoy the rest of his journey even more!
