

# WILTON WEDDING STYLE/Red

## ***In This Issue***

The Day

The Ceremony

The Reception

**Dear Editor,**

Wow family and friends with a passionate wedding using the bold color of red to set the tone. Once the color of choice for royalty, red creates energy and commands attention.

In this issue we'll cover the table with red accents, add red accessories to bridal party gowns and toast the bride and groom with drinks and desserts tinted with the color of the day.

Every detail counts when it comes to a Wilton wedding!

**Happy Weddings!**

Nancy Siler

VP Consumer Affairs & Public Relations

## ***The Day***

## ***Red***

*Red evokes strong emotions and has long been associated with intense, romantic love. Vivid, dramatic and passionate, red is the warmest of all hues. Red symbolizes joy, life and abundant prosperity. From bright scarlet to maroon to deep wine, red proclaims your love to the whole world.*

The [Infinity Invitation Kit](#) includes templates for creating a stunning invitation. Finish with rhinestone accents and a band of red ribbon to let guests know that this will be a sophisticated, romantic affair.

A formal setting such as an old mansion, a grand church or synagogue, or an elegant hotel creates a dazzling backdrop for such a special event. Add energy to the room by balancing red with white; black and silver will increase the impact.

---

## ***The Ceremony***

Every aspect of the ceremony is an opportunity for unexpected glamour. Worn by the flower girl and bride, deep red satin sashes add dazzling flashes of color as they walk down the aisle.

Wilton white wedding accessories embellished with eye-catching sparkling rhinestone buckles and red ribbon flair continue the invitation theme. Use them to dress up the [Timeless Wedding Day Collection Ring Bearer Pillow](#) and [Graceful Unity Candles](#).

---

## *The Reception*

Set the tone for a night of celebration with elegant and enchanting decor. Look for a selection of subtly matching reds at a local fabric store to add accents of red to save money without sacrificing style.

Linens, tableware, flowers and favors are easy to coordinate. Even a simple fabric runner on a banquet table captivates attention. Sprinkle [Red Petals with Organza](#) around centerpieces for a whimsical splash of color.

Continue the color scheme in the menu with layers of red velvet cake covered in snow white icing. When it's time to cut the cake, tie red ribbon around the [Graceful Knife](#) handle to add a little extra glamour.
